# BRIDGE
## COMMUNICATION
### FROM BIOPRISM, INC.

*WITNESS the POSSIBILITIES*

The Bridge Communication App is an affordable, easy-to-use app that's been proven to:

·BREAK DOWN BARRIERS· ·ENHANCE COMMUNICATION·
·INCREASE ENGAGEMENT & EXPLORATION·
·DECREASE FRUSTRATIONS & NEGATIVE BEHAVIORS·

## THE BRIDGE COMMUNICATION APP

was designed to eliminate the common struggles for non-communicative individuals. With its unique and practical functionality, it makes communication easy and fun, and programming it is simple and quick. Bridge is uncomplicated – from the simplicity of the navigation and toolbars to the decreased amount of information to process on each page – so there are fewer limits to engagement and interaction. Constraints of traditional apps don't exist with Bridge.

The Bridge Communication App has been tested and proven in schools, homes, and private clinics. Created by a speech-language pathologist who specializes in augmentative and alternative communication supports – and developed by a team of educators, therapists, and caregivers – the app was designed to produce better results and meet the unique needs identified over nearly 20 years of private clinic practice.

**THE BRIDGE COMMUNICATION APP** was developed in a way that makes sense to multi-dimensional and multi-sensory thinkers, whose thought pattern is object-based rather than word-based.

## A COST-EFFECTIVE SOLUTION THAT YOU CAN USE RIGHT NOW

Teachers, therapists, and caregivers can begin using Bridge Communication App immediately on an iPad or iPad Mini – eliminating the need for unwieldy and expensive hardware. Varied vocabulary is systematically organized for simple navigation and the app is easily customizable. With Bridge, you can focus on interacting rather than struggling with frustrating and limiting programming requirements.

Features and functionality that set Bridge above the rest include:

**PRELOADED WITH OVER** 1,200 high frequency vocabulary items, 2,800 articulation prompts, and over 800 editable mapped communication sequences.

**SIMPLE VOCABULARY CUSTOMIZATION** option includes the 'SymbolStix' image library, or users own images

**ENGLISH AND SPANISH** voice, text, and translation. Simple and varied voice output selections that are natural sounding and reliable.

**ABILITY TO QUICKLY SECURE AND STORE BACK-UP FILES** to Bridge's server for easy access or recovery of saved files between devices. Ability to reset vocabulary to preloaded default.

**THE ABILITY TO HAVE LIVE CHATS** with other Bridge Communication App users, including screen sharing options, face sharing views, and live audio.

## PARENTS, TEACHERS, & THERAPISTS LOVE IT. KIDS ACTUALLY USE IT, & DON'T ABANDON IT.

The Bridge Communications App's beautiful presentation is intuitive, complete, and simple – so students pay attention, use it, and interact without behaviors. Teachers can independently create a means to support curriculum through communication. Parents and caregivers can use and program individualized vocabulary in the home environment when applicable. Bridge allows the entire team to engage and experience growth and language development together.
